Bid Capacity: The tenderers will be qualified only if their Available Bid Capacity (**As per Annexure 4 of NIT**) is more than the approximate cost of work as per NIT. Available bid capacity will be calculated based on the following formula (Value shall be rounded off to two decimal places):

$$\text{Available Bid Capacity} = 2 * A * N - B$$

In the case of a group, the above formula will be applied to each member to the extent of his proposed participation in the execution of the work. If the proposed % participation is not mentioned, then equal participation will be assumed.

Suppose there are 'P' and 'Q' members of the JV / Consortium / Group with their participation in the JV / Consortium / Group as 70% and 30% respectively and available bid capacity of these members as per above formula individually works out 'X' and 'Y' respectively, then Bid Capacity of JV / Consortium / Group shall be as under:
