

Integrated Safety, Health and Environment Policy

“LUCKNOW METRO RAIL CORPORATION is committed to deliver excellence to its stakeholders by building, operating and maintaining a world class Metro Rail network for Lucknow, the capital city of Uttar Pradesh through an effective and efficient management system in all of its activities in rail asset creation project.”

With the above commitment we resolve ourselves to succeed in our vision by focusing fully on our strengths and by building stronger connection with our stakeholders, customers and the people of the city.

In support of our vision, we will:

- Institutionalize Safety, Health and Environment management process with reference to SHE Organization.
- Foster continual improvement, benchmark our SHE performance by adopting best practices with commitment to comply applicable legislations and other requirements.
- Resolute resource conservation, minimize potentially harmful effects resulting from our operations and implementing improvements associated with the prevention of pollution, injury and illness.
- Assure sustainable development to anticipate Environmental and Social challenges of mobility and actively manage the risks and opportunities they entail.
- Encourage each other to be promotor of safety, health and environment both on and off the job through training, awareness and continuous competence building
- Make this policy widely known to all and periodically review the same for continual improvement to achieve satisfaction by all the stakeholders
